Grupo di turista di Aruba na Israel

Mester spera ora cu regla situacion di vuelonan for di Tel-Aviv

Diasabra mainta tempran, henter mundo a wordo sorprendi pa un atake sin igual di teroristanan di Hamas riba Israel cu a logra loke nan tabata determina pa haci, esta di crea panico, destrui tur loke nan topa nan dilanti na Israel.

E atake a sosode den oranan tempran di diasabra mainta caminda gruponan arma a kibra e muraya di siguridad cu ta separa e estado di Gaza y Israel, caminda nan a drenta den varios region di estado Hudiu pa causa mas daño posibel.

Na e momento di e asalto aki, tabatin miles di turista bishitando ciudadnan di Israel como parti di nan vacacion pa tera Santo y entre e turistanan aki, tambe tabatin un grupo di hendenan for di Aruba cu tabata y ainda ta den un situacion tenso na aeropuerto di Tel-Aviv.

E caos cu a surgi tambe a percura pa incomodidad y sigur momentonan tenso cerca turistanan cu ta bishitante Israel entre nan un grupo for di Aruba cu ta ser calcula di ta un grupo di entre 20 pa 30 persona.

Presidente di Israel Benjamin Netanyahu for di diasabra atardi caba a declara cu e pais ta den estado di guerra cu Hamas y a sigura su pueblo cu esunnan cu a comete e acto aki, lo bay paga caro pa loke nan a haci.

Memey di tur e panico cu a surgi, tambe tin varios pais cu a pidi nan ciudadanonan cu ta na Israel pa bandona e pais asina cu nan por despues di e declaracion haci pa Presidente di e pais.

Realidad di e hecho ta cu e teroristanan no a yega den cercania di e aeropuerto internacional di

Tel-Aviv pero defensa militar di e pais tabata conta cu e posibilidad cu hamas lo trata na destrui mas tanto cu por e infraestructura di e pais, entre cual tin e aeropuerto grandi aki.

E ciudad principal aki a wordo alcansa pa algun raket cu a wordo lansa for di e sector di Gaza pero den oranan di anochi y den curso di ayera diadomingo, e defensa pa proteccion contra raketnan, a funciona bon evitando mas destruccion. For di diasabra tin varios grupo di turistanan cu a yega pa busca un forma pa bandona e pais pero varios compania di aviacion, a cancela vuelonan te cu dialuna mainta pero for di Hulanda a ser informa cu turistanan Hulandes cu ta na Israel, lo wordo evacua mas pronto posibel.

Departamento di Asuntonan Exterior diasabra merdia a

pone Israel den color oranje cual ta indica cu pasaheronan cu solamente mester biaha pa e pais ey, haci esaki mientras cu na mes momento a pone e region di Gaza, Siria, Libanon di Egipto, den color cora, cu ta prohibi tur hende pa biaha pa e paisnan aki.

E compania TIU diasabra a dicidi di prohibi 32 Hulandes cu tabata biaha pa Israel, pa haci esaki mientras cu e compania a mostra cu e tin 4 Hulandes pega na e aeropuerto di Tel-Aviv. Na momento di e atake riba Israel, ta ser calcula cu lo tin un grupo di mas cu 100 persona bishitando varios sitio di e pais hudiu caminda e prome decision tuma pa e companianan cu cual e hendenan aki a biaha, ta di mira mas pronto posibel, e situacion cu tin den e region cu nan a bay pa bishita.

E problema mayor ta si tin suficiente vuelo pa saca tur hende mientras cu pa awe dialuna mainta, varios compania di aviacion, lo sigui cu nan vuelonan normal pa Israel.

KLM y Air France diasabra a dicidi di re-ahusta vuelonan pa Tel-Aviv mientras cu e compania Aleman, Lufthansa a dicidi di suspende tur cos y spera pa mira e situacion dialuna mainta pero e compania aereo El Al y un otro Arkia ambos di Israel, a dicidi cu awe dialuna nan lo reanuda vuelonan pa Tel-Aviv.

Ta spera cu awe KLM lo reanuda su vuelonan caminda entre otro a keda sigura cu lo no bula pa e regionnan cu a wordo ataca diasabra ultimo y caminda ainda tin luchanan feroz tumando luga.

Pues ta anticipa cu e grupo di turistanan di Aruba, lo regresa entre awe y mañan for di Israel si e situacion no a cambia entre ayera nochi y dialuna mainta.

Premier Evelyn Wever Croes

A regresa cu urgencia pa atende situacion di Arubianonan na Israel

E confrontacion arma cu a surgi for di diasabra mainta na Israel caminda e pais aki a ser invadi pa rebeldenan di e grupo arma Hamas, a crea inconveniencia tambe un grupo di turistanan procedente for di Aruba cu tabata bishitando entre otro sitionan Santo na Israel.

E grupo di Hamas a dirigi entre 2 mil pa 3 mil raket for di Gasa y Libanon pa diferente sitio den Israel, pero tambe a dirigi varios di e proyectilnan aki pa e ciudad di Tel Aviv. Den tur e panico cu a surgi despues di e incidente serio aki, tur atencion a bay ta con bin esaki a sosode y tambe den cuanto ciudad e atake aki a ser ehecuta.

Mesora varios compania di aviacion tambe a cuminsa tuma medida purbando na saca turistanan for di e zona di combate y sitionan caminda nan ta ser confronta cu confrontacion arma y tambe turistanan cu a ser hiba pa sitionan turistico rond di e pais conoci mundialmente.

Tabata diadomingo mainta, casi 24 ora despues di e conflicto a inicia, cu a drenta informacion cu tin un grupo di turistanan di Aruba tambe pega na Israel, purbando pa bandona e pais y regresa cas bek sano y salvo.

A estima cu lo ta trata di un grupo di entre 15 pa 20 persona cu cual a haya contacto den oranan di mainta pero na mes momento a bira conoci tambe cu Prome Minister Evelyn Wever Croes, kende tabata den exterior na momento di e

inicio di e invasion di Israel, lo a dicidi di cambia tur su plannan y regresa Aruba pa atende cu e situacion aki.

Un situacion cu Premier di Aruba lo mester a atende cu Hulanda pa mira riba tur posibilidad cu lo tin pa saca e ciudadanonan aki for di Israel, sabiendo cu ya caba gobierno Hulandes cu cooperacion di KLM a inicia un proceso asina diadomingo merdia.

Den oranan di ayera tardi a bira conoci cu e grupo aki a logra subi avion y nan ta sano y salvo y cu nan lo yega Aruba mañan atardi probablemente.

Dos sospechoso den caso IBIS nunca mas a bay cera!

Unico dos sospechosonan cu a declara contra ex Minister di Labor Paul Croes den e caso penal IBIS y cu a ricibi castigo di prizon nunca mas a bay cera.

Sospechosonan cu a keda sentencia na 2018 esta F. Shwengle y J. Feliciano nunca autoridadnan a manda nan prizon pa sintan castigo. Informacion aki nos redaccion a ricibi e siman cu a pasa. Mirando cu den 1 luna e caso di apelacion di “Ontneming” contra di Paul Croes lo tuma luga, nos lo desea di sa con a para cu e dos sospechosonan acusa esta F. ‘Chelito’ Shwengle y J. ‘Juancho’ Feliciano cu a haya castigonan di 2 aña y mei y 1 aña y ocho luna respectivamente.

Dicon nunca Ministerio Publico a cumpli cu e sentencia di Hues di prome instancia y manda ambos sospechoso sintan castigo?

Durante henter e investigacion di e caso penal IBIS, autoridadnan hudicial a scucha decenas di testigo y sospechoso. Durante henter e caso aki cu a scucha mas di 60 persona, solamente dos (2) a declara contra Paul Croes. E dosnan aki esta Feliciano y Shwengle a haya sentencia di prizon cual nan no a apela tampoco, es decir cu e sentencia a bira definitivo. Ambos lo mester sinta un castigo di prizon conforme nan sentencia.

Ta hopi cuestionabel e hecho cu pa

Paul Croes si a exige prizon di inmediato y pa e dos acusadonan aki no a piki nan nunca. Nos lo cuestiona OM e siman nan binidero pa mira kico lo ta e motibo cu ningun di dos sospechosonan cu sentencia desde 2018 nunca a bay cera.

Minister Wever a presenta Raad van Bestuur AFTA

Minister Geoffrey Wever, durante un rueda di prensa, a presenta na pueblo di Aruba dos miembro Raad van Bestuur di Aruba Fair Trade Authority (AFTA). Pa por yega na candidatonan capacita pa e funcion di miembro di Raad van Bestuur di AFTA a sigui un proceso transparente na cual por medio di un decreto ministerial a stipula e perfil pa e funcion (functieprofiel) di miembro di Raad van Bestuur AFTA. A instala tambe un comision di solicitacion por medio di un decreto ministerial pa haci e parti di e solicitacion (werving en selectie) y e voordracht di e candidatonan na Minister Wever y na Consejo di Minister.

E comision di solicitacion tabata consisti di diferente profesional: un profesional Hulandes implementatiemanager di AFTA, Presidente di Corte Commun di Husticia pa Aruba, Curaçao, Sint Maarten en van Bonaire, Sint Eustatius en Saba Sr. Maurits de Kort y un represenante di adviesbureau internacional Deloitte Dutch Caribbean. E proceso di solicitacion pa miembro di Raad van Bestuur AFTA tabata uno transparente y formalisa. Despues di e proceso di solici-

tacion e comision a postula dos candidato pa bira miembro di Raad van Bestuur di AFTA. Riba consejo di e comision di solicitacion, Minister Wever a aproba esaki.

Diabierna 6 oktober 2023, Minister Geoffrey Wever a presenta e dos miembronan di Raad van Bestuur AFTA. Ta trata di Sr. F.R. Sint Jago cu a wordo nombra presidente di Raad van Bestuur di AFTA y Sr. T.M. Snoep cu a wordo nombra 'gewoon lid' di AFTA.

Pa varios luna Minister Wever y e team di implementacion ta bezig cu e trabounan preparatorio pa AFTA por cuminsa opera. E proyecto aki ta wordo financia cu fondo Hulandes y cu fondo di Aruba. E ultimo lunanan e team di implementacion ta bezig ta prepara website, oficina, proceduranan, HR beleid, AO/IC, profielschetsen pa miembronan di e Raad van Bestuur, etc. Actualmente ta kedando cla cu e oficina di AFTA pa e trabounan di AFTA pa pueblo di Aruba por cuminsa.

"Mi ta contento cu e proceso transparente di nombracion di miembronan di Raad van Bestuur di AFTA a keda conclui. Pueblo di Aruba por a sigui e desaroyo di implementacion di AFTA y asina haya mas y mas conocimiento di kico AFTA lo significa y vooral cual ta e beneficiacion di AFTA. AFTA lo mehora competencia entre companianan na Aruba, cu lo tin como consecuencia cu tin miho prijs y miho calidad di producto y servicio. AFTA ta birando un realidad!", Minister Wever a comenta.

Results of the Treasury Bills issuance by the Government of Aruba in the amount of Afl. 32,250,000.00 for the period October 6, 2023 – January 5, 2024

Israel ta declara guerra contra Hamas

Riba october 7, 2023 Israel a declara guerra contra Hamas, un organisacion militar Palestino. Esaki ta pasa despues cu Hamas a lansa un ataca di sorpresa contra Israel causando destruccion y morto di casi 250 hende.

E ataca di raket a tembla basta ciudad y bario nan di Israel incluyendo Tel Aviv, Jerusalem y Haifa causando dañonan masivo riba propiedad y infraestructura di e pais resultando na basta morto di hendenan civil y miles mas herida incluyendo muchanan y personanan di edad.

Israel a responde cu un serie di ataca di aire riba varios parti riba e Gaza Strip cu ta wordo ocupa door di Hamas. Esaki tambe a causa basta daño y destruccion lagando atras varios herido y morto di civil y tambe militantenan di Hamas.

E gobierno di Israel a bisa cu nan lo keda den un estado de guerra te ora cu Hamas no lo por lansa ataca mas riba Israel. E declaracion di guerra aki ta un escalacion significant den e conflictio actual entre Israel y Palestina cu ta andando pa basta tempo caba.

E United Nations Security Council a pidi di biaha pa un "ceasefire" entre Israel y Hamas. Sinembargo, no por sa ainda si niun di dos banda lo cumpli cu esaki y para e atakenan contra otro. E speranza ta pa de-escala e conflictio mas pronto posibel pa asina preveni mas destruccion y morto di ambos banda.

Chauffeur irresponsabel deteni, despues di na varios ocasion a trece trafico na peligro

Diasabra den oranan laat di anochi, chauffeur di un Chevrolet Spark shinishi a wordo deteni riba e caminda principal di San Nicolas pa Oranjestad, na altura di Camacuri.

E Chauffeur tabata biniendo for di pariba coriendo cu un velocidad hopi halto y tabata treciendo trafico den peligro, na varios ocasion e la casi a causa un accidente. Probablemente chauffeurnan riba caminda a nota su actitud

asina irresponsabel den trafico, cu nan a bati alarma prome cu e causa un daño grandi na otro of na su mes.

Mesora polis a bay direccion di Green Corridor, na prome instante polis a dun'e ordo pa e para, pero no a respeta e ordo di autoridad y a sigui core. Riba e caminda di Camacuri cu un poco esfuerzo, e patruyanan di polis a logra blokea e Chevrolet Spark y asina logra cu e chauffeur mester a baha caminda y para su auto.

E agentenan policial a nota a cu e chauffeur ta muestra di ta bou influencia. E la wordo deteni y cu transportwagen e la wordo transporta pa warda di polis, pa asina haci test di alcohol cu ne. Su auto a keda confisca y cu takelwagen hiba pa warda di polis.

Seminario pa Student-Athletes:

Un colaboracion entre EducationUSA, UStudy y USA Baseball

Un sesion educativo specialmente pa studiantenan y mayornan

Ariba diasabra dia 14 di october na Universidad di Aruba a tuma luga e sesion titula: “College Baseball in the USA – What you need to know” di 9:00 – 11:00am dedica especificamente na estudiante-atletanan cu tin e meta pa sigui nan estudio y hunga baseball na Merca.

Student-athlete adviser di EducationUSA Aruba, Jo-Anne Croes lo inicia e sesion introduciendo kico ta e posibilidadnan y recursonan cu tin na Aruba pa nos estudiante-atletanan. UStudy educational and athletics adviser, Marina Meijer lo comparti informacion relevante tocante con pa scoge un institucion, e proceso di aplicacion y fondonan.

Sr. Drew Briese ta e head baseball coach na Centre College y lo elabora ariba diferente punto cu un famia mester tene na cuenta si kier yega e nivel aki. Y lo comparti kico e como head coach ta busca den un Student-Athlete. En general tin tres aspecto specifico cu mester enfoca riba dje cual ta: Talento, Cifranan y Character. Tur tres di e elementonan aki ta mesun importante, talento ta forma solamente un tercera parti. E cifranan di school lo determina e cantidad di ayudo financiero cu un atleta por ricibi pa su estudio rebahando e gastonan y bo character, ta locual lo laga bo sobresali riba un otro cu tin mesun nivel di talento y cifra.

E lo ta un sesion interactivo cu amplio oportunidad pa pregunta. Ta invita tur estudiante entre 12 – 17 aña cu tin e meta pa sigui cu nan carera como student-athlete na Merca pa atende e seminario aki dia 14 di october di 9-11am na

Universidad di Aruba, Room 4.

Mester registra pa por segura un luga, mirando cu tin un maximo cantidad di persona cu por fit den e sala. Registra aki: <https://bit.ly/studentathlete2023>

Lider di oposicion mr. Mike Eman:

Gabinete Wever Croes a distancia y ta ciego pa realidad di Pueblo

“**D**en e dianan aki diferente empresa a manda notificacionnan clientenan cu nan ta bay subi nan prijs, pasobra e introduccion di 7% BBO na frontera a subi nan costo di operacion cu nan tin cu pasa pa e cliente. Pero Gabinete Wever Croes tur tempo a keda insisti cu e 7% BBO na frontera lo no tin efecto riba prijs. Awe lo contrario ta resulta atrobe; companianan ta informando clientenan di aumento pa motibo di e 7% BBO na frontera”. Asina mr. Mike Eman a declara na Prensa den fin di siman.

GABINETE WEVER CROES A

CAUSA UN TORMENTA PA PUEBLO

Como lider di fraccion di AVP y lider di oposicion, mr. Mike Eman ta musta cu e tin un preocupacion grandi cu e forma con Gabinete Wever Croes II, a bin ta birando lomba pa pueblo di Aruba y no ta wak kico ta biba den pueblo y comercio. Na e mes momento Eman ta señala cu comunidad di Aruba, pa algun tempo caba a bin haya su mes cu medidanan di Gabinete Wever Croes den locual por wordo considera e “perfect storm” di problemanan social-economico. E mesun gobierno cu ta causando e problemanan aki ta fayando barbaramente tambe pa reconoce e consecuencianan di nan maneho y no ta atende cu tur reto cu tin pa Pueblo.

E “tormenta perfecto” aki, ta wordo caracteriza pa dolor, pena, pobreza falta di perspectiva y tambe fracturacion den famia y barionan.

DESOLACION DEN PUEBLO

“Nos ta constata un bashi, un perdida grandi pa loke ta confianza basico cu mester existi y ta forsa di cualkier desaroyo den nos pueblo. Nos por mira tambe un buskeda pa tapa dolor cu actividadnan momentaneo cu no ta mehora e situacion di nos hogarnan. Na final e escapadanan momentaneo ta conduci na mas reto socio-economico pa familiarnan na Aruba, cual lo engrandece ainda mas e sentimento di abandono aki di parti di gobierno. Nos ta mira un preocupacion creciente di nos hendenan pa loke ta pobreza den nos pais, e desintegracion social, aumento di crimen y un fracturacion di balornan. Hasta e clase media ta den un lucha di sobrevivencia.

INSIGURIDAD COMBINA CU

AUSENCIA TOTAL DI PERSPECTIVA

Na e momentonan aki ta reina un sentimento di inseguridad riba kico futuro di e calidad di bida lo bay ta. Tin un falta total di un entrada cu ta alcanza e gastonan mensual pa miles di famia na Aruba. Tur cos ta sigui subi y no tin ningun indica-

Lider di Oposicion, mr. Mike Eman ta scucha dolor di pueblo den bario di Bushiri

cion con e poder di compra lo por wordo recupera na man di un gobierno di medida. “Ta bisto cu confianza di consumidornan ta na un punto hopi abou y e proceso di deterioro fisico ta bisto den diferente sector di nos comunidad. Tur esaki mientras cu comunidad ta enfrentando un aumento continuo di un grupo grandi di ciudadanonan cu ta bibando cerca of bou di loke ta e limite di pobreza”, mr. Mike Eman ta enfatisa

MESTER CODIFICA BESTAANSZEKERHEIDY

INTRODUCI SOCIAAL CULTUREEL PLANBUREAU

Hustamente pa evita e locual un gobierno manera Gabinete Wever Croes por causa na dolor y sufrimento den pueblo e ta importante pa pone den Constitucion e responsabilidad di un gobierno pa percura e “bestaanszekerheid” di Pueblo, e lider di oposicion mr. Mike Eman ta enfatisa.

E ta bisa cu fraccion di AVP ta trahando riba un reforma legislativo asina pa ancla “bestaanszekerheid” den constitucion pa fortifica e obligacion di gobierno pa percura pa e existencia basico di pueblo. Locual nos ta bibando awe na sufrimento y negligencia a yega di sosode den mas gobernanacion di signatura di MEP.

Tambe mr. Eman ta musta cu e situacion actual ta accentua tambe e necesidad di un instituto manera cu a fraccion di AVP ta propone pa Aruba, esta un Sociaal Cultureel Planbureau Aruba (SCPA). Un instituto asina cu estudionan lo trek aan de bel ora tin tipo di negligencianan socioeconomico asina, e ta bisa. P’esey AVP lo busca “draagvlak” den comunidad pa bin cu un SCPA.

Ta momento pa nos re-descubri nos vision comun y inverti den e bienestar general y e momento a yega pa cambio, caminda nos tin cu uni forsa y traha pa un futuro positivo pa nos pais,” e lider di oposicion, mr. Mike Eman a finalisa bisando.

Minister Dangui Oduber

Carnival Cruise Lines lo aumenta cantidad di pasahero cu 30% na aña 2024

E siman cu a pasa minister Oduber tawata di bishita na Carnival Cruise lines y tambe Florida Caribbean Cruise lines Association (FCCA) hunto cu CEO di APA sr. Figaroa, COO di APA sr. Arends y tambe sr. Melchiors cu a representa ATA pa discuti e cruise passenger fee (CPF) y tambe haci un presentacion di tur e proyectonan di upgrading di producto Aruba. E CPF ta e fee cu barconan crucero ta paga APA pa cada pasahero cu drenta Aruba. E entradanan aki ta wordo inverti pa APA pa mehora e experiencia di e turista crucero.

Den e cuadro aki a bishita Carnival Cruise lines y FCCA pa discuti e tema importante aki y pa comparti cu nan e direccion cu pais Aruba ta bay. Na mes momento a duna un presentacion hopi amplio di tur e proyectonan di mehora y upgrading di infraestructura cu ta den ehecucion y tambe den pipeline.

Carnival cruise lines tambe a duna e delegacion un update di aña 2023 y tambe nan proyeccionnan pa aña 2024. Banda di esaki a comparti tambe nan guest satisfaction di nan pasaheronan ora nan bishita Aruba.

Pa loke ta aña 2023 esaki tawata uno hopi positivo pa Carnival Cruise. Aruba lo ricibi mas di 210.000 pasahero e aña aki di Carnival y esaki ta un aumento drastico compara

cu aña 2022.

Pa aña 2024 nan a comparti cu e delegacion cu Aruba lo bay experiencia un aumento di 30% asina surpassando 250.000 turista crucero di Carnival Cruise lines so.

Nos tawata contento pa scucha cu Carnival cruise lines, mescos tawata e caso cu Royal Caribbean, Norwegian, Disney Cruise lines, Princess Cruise lines, Holland America y Ritz Carlton, nan tambe lo bai aumenta nan cantidad di calls y pasaheronan pa aña 2024. Aruba ta keda un destinacion hopi gusta pa turistanan crucero y nan ta menciona cu esaki ta danki na tur e inversionnan cu ta wordo haci pa mehora y eleva producto Aruba. Nan ta considera e hecho cu tin inversionnan continuo como algo sumamente positivo pa nan bishitantenan.

Sra. Michele Paige cu ta CEO di FCCA a informa nos cu Aruba ta wordo considera un destinacion di calidad halto pa liñanan crucero y nan a bisa cu Aruba ta keda "high in demand". Nan a gradici nos pa e partnership, pa e estabilidad politico cu Aruba ta brinda y tambe pa tur e inversionnan cu ta wordo haci pa ofrece un miho experiencia pa e turista crucero. Sigur un siman hopi exitoso pa loke ta turismo crucero pa Aruba.

Minister Rocco Tjon:

A atende e di cinco edicion di 'Global Mental Health Summit' na Argentina

Recientemente, Minister di Husticia y Asuntonan Social sr. Rocco Tjon, tawata presente na e di cinco edicion di e "Global Mental Health Summit", na Buenos Aires, Argentina. Durante e simposio aki, minister Tjon a hiba palabra den e closing panel, den nomber di reino completo. A papia tocante kico Aruba y reino completo ta haciendo, pa atende debidamente cu e tema di salud mental.

E balor agrega di e simposio aki ta cu nos por siña y comparti informacion cu otro paisnan, pa loke ta trata salud mental, pero tambe ta brinda e oportunidad unico pa comproba y verifica si nos maneho ta cuadra cu e situacion actual na mundo, of si esakinan mester wordo adapta. E simposio aki a brinda e espacio pa reflexiona riba locual e otro paisnan a trece padilanti, y scuchando esaki, tawata un momento di realisacion caminda por a tuma nota cu nos cada un ta enfrente e mesun reto y oportunidadnan pa loke ta salud mental. Asina por deduci cu, e retonan cu nos cada un ta enfrente, por wordo mitiga door di traha mas di cerca cu otro, creando asociacionnan como tambe ehecutando un enfoque multisectorial.

Segun e mandatario, como ex-miembro di Cuerpo Policial di Aruba, y ex-director di KIA, el a experiencia e consecuenecianan di e negligencia pa cu salud mental, ora cu e cuidu aki no ta wordo brinda na tempo. Algun experto a menciona, cu adiccion di substancianan, gambling y abuso domestico hopi biaha ta e causa principal di enfermedad mental. Pues programanan social di sosten, manera "Veilige Barrio's" cu ta enfoca riba programanan di deporte, arte, y salud mental pa nos hubentud ta sumamente importante. Interesante tawata pa scucha expertonan papia tocante e importancia di tin programanan social di sosten, pa mitiga problemanan di salud mental, y promove bienestar.

Na aña 2018, Aruba a inverti 20 milyon dollar, pa fortifica e cadena social y di salud mental. Despues di e pandemia, a enfoca riba inversionnan sostenibel, como tal a traha un 'roadmap' pa atende cu e tematica di problemanan di salud mental y adiccion.

E roadmap ta enfoca riba fortalece Aruba su sistema di cuidu pa cu salud mental, y tambe ta provee un agenda comun pa loke ta inversionnan. Importante pa menciona ta cu e 'roadmap' tin seis punto di prioridad, cual por wordo uza como e base pa involucra sectornan priva y publico, organisacionnan di sociedad civil, y demas sectornan. Pa motibo di esaki, a tuma e decision deliberadamente pa pone e cuidu di salud mental bou di Ministerio di Husticia y Asuntonan Social pa asina crea un enfoque multisectorial.

E 'roadmap' aki a wordo crea, danki na nos diferente partnernan; departamento di salud publico, Pan American Health Organization, World Health Organization conhuntamente cu e comision nacional pa cu salud mental. Aruba ta conta cu partnernan na un nivel nacional pero tambe na nivel di reino Hulandes. A traves di Reino Hulandes, Aruba ta conta cu plataformanan di consulta, caminda ministernan como tambe nan representantenan ta reuni y atende cu e tematica di salud mental. E obhetivo ta pa tin un agenda comun, caminda e enfoque por ta uno similar na otro y asina atende cu e retonan pero tambe e oportunidadnan pa cu salud mental.

E seis areanan di prioridad di e roadmap aki ta enfoca riba entre otro, e parti di financiamiento, tecnologia medico, opleiding, informacion y mas. Durante e simposio, expertonan a enfoca riba e importancia di tin suficiente personal cu ta cualifica den loke ta salud mental, pero tambe pa keda inverti den nan desaroyo personal. E inversionnan aki ta esencial, y alabes ta eleva e calidad di cuidu cu ta wordo brinda na nos comunidad.

Pa e motibo aki, Gobierno di Aruba, kier para keto y duna un danki enorme na tur nos profesionalnan cu ta traha den e cadena social, particularmente salud mental y adiccion, nos sa cu e trabou cu boso ta haci, hopi biaha no ta wordo balora den comunidad, cual por ta algo demotivante, pero asina mes boso ta sigui duna di boso banda y esaki sigur ta algo di admira.

Por ultimo, Aruba ta para solido cu e pensamiento cu salud mental mester bira algo cu ta normal pa papia di dje na cas y den comunidad. Reino Hulandes ta comprometi pa ta parti di e movimiento global caminda salud mental ta keda riba e agenda, y caminda hunto nos por kibra e stigma aki. No solamente intencion, pero accion concreto lo beneficia nos comunidad.

DVG

Tuma accion pa Preveni, Proteha y Stop Dengue

Yobida por ta inicio di un menasa pa salud publico

Den e dianan cu a pasa y den e lunanan cu ta sigui, Aruba lo por sigui experencia basta yobida. Algun ta mira esaki como un bendicion, pero e por ta tambe inicio di un menasa pa salud publico, si como poblacion nos no ta consciente y traha hunto pa minimalisa e risico di malesanan transmiti pa sangura.

Manera ta conoci, sangura mester di awa pa por buta su webonan. Mas awa keda para rond di cas despues di yobida, mas oportunidad e sangura tin pa broei dentro di 8-10 dia. Pa nos por minimalisa e risico cu Aruba por bay experencia un brote di Dengue manera varios otro pais den Latino America, ta importante pa nos tur hunto ataca e problematica for di su raiz. Esaki ta encera reduci of stop e sangura di sigui broei na cantidad grandi.

Esaki nos por haci door di:

- Tira afo of warda tur obheto cu por retene awa innecesariamente paden y rond di cas, scol, trabou y alrededor di bo. Por ehempel scoter bou mata, tire, coy hunga pafo, vaas cu mata of flor y mas
- Tapa tur awa para cu tin proposito manera e.o pa muha mata of duna bestia tur dia. Por ehempel hemchi bou airco of bari cu awa di yobida y mas
- Ta extra alerta riba awa para cu proposito di bida pa mata of mascota por ehempel vaas cu mata of flor, baki awa di bestia, vijver cu mata di lili y mas

Di dos (2) paso ta proteha bo mes pa bo no haya Dengue, esaki bo por haci door di:

- Bisti paña cu manga y pia largo durante oranan di atardi pa anochi
- Uza repelente contra sangura riba cuero cu no ta cubri cu paña
- Den espacio pafo di cas cende un mecha of uza bela contra sangura
- Cera porta y bentana di cas prome cu bira scur of uza screen
- Evita di bishita areanan unda bo ta consciente cu tin hopi sangura
- Spuit paden di cas, camber, oficina y areanan cu bo ta frecuenta regularmente cu producto pa mata sangura.

Di tres (3) paso ta proteha otronan rond di bo ora cu bo tin Dengue of tin sintomanan di Dengue. Esaki bo ta haci door di evita di wordo pica pa sangura.

E sintomanan di Dengue ta entre otro:

- Keintura
- Dolor di cabes
- Biramento di stoma y sacramento
- Dolor di weso, joints y musculo
- Dolor di wowo
- Rash riba curpa

Si bo ta presenta e sintomanan aki, consulta bo dokter di cas.

Prome Minister Evelyn Wever-Croes:

Danki na nos Cuerpo di Bombero pa e trabou cu nan ta eherciando pa e siguridad di nos tur

En conexion Dia di Bombero, Prome Minister Evelyn Wever-Croes, den nomber di Gobierno di Aruba, ta gradici tur ciudadano di nos pais cu ta bisti uniform di curashi y balentia, nos bomberonan. Riba dia di Bombero, 9 di October, como un pueblo uni, nos ta honra nos ciudadanonan aki y ta gradici nan profundamente pa e trabou cu nan ta eherce pa brinda e siguridad na momento cu ta necesario.

Dilanti vlamnan di candela y retonan den comunidad, nos bomberonan ta mostra e spirito berdadero di ta heroenan. Nan ta bay dilanti peliger na momento cu otronan lo mester huy poniendo nan bida na peliger pa asina proteha nos cas, nos comunidad. Nan compromiso cu nos pueblo ta bay mas leu cu paga candela. Nan ta esnan cu ta wordo yama den tur situacion insigur. Y pa e motibo aki, nan no solamente merece nos aprecio, sino tambe nos respet. Prome Minister, den nomber di Gobierno di Aruba y pueblo di Aruba, ta gradici Cuerpo di Bombero di Aruba pa e trabou cu nan ta eherciando pa e siguridad di nos tur.

“Ban laga e trabou di bombero, nan actonan den nos comunidad, inspira cada un di nos pa ta miho ciudadanonan, pa tin mas curashi y pa brinda yudansa na nos bisiñanan den momentonan di necesidad. Nos ta balora e trabou cu bomberonan ta eherce. Nos ta aprecia e trabou cu nan ta haci pa nos. Un dia manera awe ta pa aumenta conscientisacion pa e comunidad yega mas cerca di nos Cuerpo di Bombero y gradici nan”, Prome Minister a expresa.

Youth Challenge Talent Camp 2023 Exitoso

Ta dushi pa mira hobennan feliz y contento a pesar di nan retonan cu nan tambe tin. Fundacion Centro Famia Piedra Plat ta contento di por a organisa e Youth Challenge & Talent Camp e aña aki pa hobennan.

Nan a enjoy Arte, Baile, Musica, Workshop, Sport, Video Games, Hiking, Beach Tennis na BTA, y ultimo dia na Water Park na Hooiberg.

E workshopnan a wordo enfocando ariba tres area, con pa hoben activa nan miho version, con pa hoben sea e diferencia positivo den comunidad y pa activa e interes pa hoben crea proyecto den comunidad.

Danki na e guest speakers, Mr. Frits van Dijk, Sra. Franchesca Heinze y Miss Aruba, Karol Croes. Danki tambe na e mayornan pa confia nos cu boso yiunan, danki na Anderson & Jenifer y nan ekipo di lidernan pa e tremendo trabou haci, danki na CEDE Aruba cu nos por a mantene e Campamento na un prijs social y danki na ATHA cu a yuda nos cubri e entrada di Aruba Waterpark y tur otro cu a aporta na e Camp aki.

Hobennan, see you all soon again den un otro actividad na FCFPP. God bless you all.

Bin bishita nos y probacha!

Paña di bon calidad na bon prijs.

Durante e prome TYR Giants Open exitoso e fin di siman tras di lomba, por a conta cu dos maestro di ceremonia (MC), cu a haci un trabou impresionante y diferente na loke e mundo di natacion sa custuma cu ne. Hopi tabata e comentarionan positivo riba e manera innovativo pa Aruba, con e dos MC-nan a dirigi e Campeonato y apoya e landadonan cu hopi animo.

Riba peticion di e miembronan di Giants Aquatics Aruba, diahuebs anochi e famia di Giants Aquatics Aruba a bin hunto pa asina firma un MOU cu sr. Addonsito Croes y sra. Tiziana La Torre. Ta trata di un MOU den cual tur dos persona a firma pa fungi como MC na tur evento di Giants Aquatics Aruba y sigur na e TYR Giants Open.

Ambos lo fungi como MC exclusivamente pa Giants Aquatics Aruba den e mundo di natacion. E miembronan presente a firma como testigo di e gran acontecimiento aki. Cu e paso aki, Giants Aquatics Aruba ta sigui introduci cambionan na bienestar di mundo di natacion na Aruba, adema di sigura otro exitoso TYR Giants Open.

Giants Aquatics Aruba ta gradici y yama bon bini un biaha mas na tanto Tiziana La Torre como Addonsito Croes na e gran famia di Giants Aquatics Aruba.

Fortaleza pa Famia

Nos ta extremadamente valioso y stima pa Dios

MI a stima bo cu un amor eterno p'esey cu misericordia Mi a hala bo (Jeremias 31:3). E ora ey Dios a bisa, laga Nos traha hende segun Nos imagen conforme Nos semehansa, y laga nan goberna riba e piscanan di lama, y riba para nan di cielo, y riba e bestianan di cria, y riba tur bestia cu ta lastra riba tera.

Y Dios a crea hende segun Su mes imagen, segun e imagen di Dios. E a crea hende, homber y muhe E a crea nan. Y Dios a bendiciona nan y Dios a bisa nan, Sea fructifero y multiplica, y yena e tera, y haci esaki somete na bo, y goberna riba e piscanan di lama, y riba e para nan di cielo, y riba tur ser bibo cu ta move riba tera (Genesis 1:26-28).

Asina tur cos a cuminsa, pero ora pica a drenta mundo pa medio di Adam. Dios a bolbe mostra su misericordia atrobe cu e mundo completo y den Juan 3:16 ta para skirbi: Pasobra Dios a stima mundo asina tanto, cu E a duna su Yiu unigenito, pa ken cu kere den dj'E, no bay perdi ma tin bida eterna.

Pasobra Dios no a manda e Yiu den mundo pa condena mundo. Ma pa e mundo wordo salba door di dj'E. Esun cu kere den dj'E no ta condena, esun cu no ta kere ta condena caba, pasobra e no a kere den e nomber di e Yiu unigenito di Dios (Juan 3:17-18).

Y awor aki tur hende por scoge pa kere den Cristo Hesus y sali for di bao di condenacion y asina ricibi bida eterna of bo ta scoge pa keda biba bao di condenacion.

Tin hende ta kere cu tin free for all, y cu nan por sirbi dos Dios, esey no ta posibel, pasobra ta locual bo scoge y biba pe awe, ta locual lo bo cosecha mañan ora nos Señor presenta pa busca su pueblo.

P'esey tur locual nos ta mira ta manifesta den mundo awor aki, nos ta bon na altura cu ta scogemento di hende, pasobra hende mes scoge entre berdad of berguensa, entre inmoralidad of puresa.

No lubida, nos como ser humano tin gran balor of miho bisa nos ta extremadamente valioso y stima den bista di Dios, (Mateo 6:23).

Pasobra pa gracia nos a wordo salba pa medio di Fe, esey no di boso mes, e ta e don di Dios: no como resultado di e obranan, pa ni un hende no gaba (Efesionan 2:8-9)

Boso a wordo cumpra pa un prijs, no bira esclavo di hende. Rumannan laga cada hende keda dilanti di Dios, den e forma cu e a wordo yama (1Corintionan 7:23-24).

Ma Dios a demostra Su mes amor pa cu nos den esaki, cu tempo nos tabata pecado ainda, Cristo a muri pa nos (Romanonan 5:8).

Boso no sa cu boso ta tempel di Dios, y cu e Spirito di Dios ta biba den boso. Si un hende destrui e tempel di Dios, Dios lo destrui e, Pasobra e tempel di Dios ta santo, y esey ta loke boso ta (1 Corintionan 3:16-17)

Of boso no sa cu boso curpa ta tempel di Spirito Santo, kende ta den boso, kende boso tin di Dios, y cu boso no ta pertenece na boso mes? Pasobra boso a wordo cumpra pa un prijs, p'esey glorifica Dios den boso curpa (1 Corintionan 6:19-20).

P'esey si un hende ta den Cristo, ta un criatura nobo e ta, e cosnan bieu a pasa caba, ata, tur cos a bira nobo.

"Dios ta amor y amor ta Dios,
Maske mi no ta na e mundo aki,
tur dia lo mi ta banda
di boso Curazon,
mi por stens di loke Señor ta hasi"
- Salmo 33

Cu hopi tristesa pero conforme cu boluntad di
Dios nos ta anuncia cu a bay laga
nos den brasa di Señor

CARNIVAL CRUISE LINES TO INCREASE PASSENGER VOLUME BY 30% IN 2024

Carnival Cruise Lines to Increase Passenger Volume by 30% in 2024

DURING the past week, Minister Oduber paid a visit to Carnival Cruise Lines and the Florida Caribbean Cruise Lines Association (FCCA) alongside APA's CEO, Mr. Figaroa, APA's COO, Mr. Arends, and Mr. Melchiors, who represented ATA. The purpose of the visit was to discuss the cruise passenger fee (CPF) and present all the ongoing and planned product upgrading projects in Aruba. The CPF is the fee that cruise ships pay to APA for each passenger entering Aruba. These revenues are invested by APA to enhance the cruise tourists' experience.

During this meeting, they visited Carnival Cruise Lines and FCCA to address this crucial issue and share the direction that Aruba is heading. They also presented an extensive overview of all the ongoing infrastructure improvement and upgrading projects, both those in execution and those in the pipeline.

Carnival Cruise Lines also provided an update for 2023 and their projections for 2024. Additionally, they shared their guest satisfaction ratings from their passengers when they visit Aruba.

For the year 2023, this was exceptionally positive for

Carnival Cruise. Aruba is expected to receive over 210,000 Carnival passengers this year, marking a significant increase compared to 2022.

Looking ahead to 2024, they informed the delegation that Aruba is expected to experience a 30% increase, surpassing 250,000 cruise tourists from Carnival Cruise Lines alone. We were delighted to hear that Carnival Cruise Lines, like Royal Caribbean, Norwegian, Disney Cruise Lines, Princess Cruise Lines, Holland America, and Ritz Carlton, plans to increase their number of calls and passengers for 2024. Aruba remains a highly favored destination for cruise tourists, and this is attributed to the continuous investments made to enhance and elevate the Aruban product. They consider ongoing investments as extremely positive for their visitors.

Ms. Michele Paige, CEO of FCCA, informed us that Aruba is considered a high-quality destination for cruise lines and mentioned that Aruba remains 'high in demand.' She expressed her gratitude for the partnership, the political stability Aruba provides, and all the investments made to offer a better experience for cruise tourists. It was certainly a highly successful week for cruise tourism in Aruba.

Minister Wever Presents Aruba Fair Trade Authority Board of Directors

DURING a press conference, Minister Geoffrey Wever introduced two members of the Board of Directors of the Aruba Fair Trade Authority (AFTA) to the people of Aruba. The selection of qualified candidates for the role of AFTA Board member followed a transparent process, during which a ministerial decree outlined the profile for the position (function profile) of AFTA Board member. Additionally, a selection commission was established through a ministerial decree to oversee the application and selection process, as well as to recommend candidates to Minister Wever and the Council of Ministers.

The selection commission was composed of various professionals, including a Dutch implementation manager from AFTA, the President of the Joint Court of Justice for Aruba, Curaçao, Sint Maarten, Bonaire, Sint Eustatius, and Saba, Mr. Maurits de Kort, and a representative from the international advisory firm Deloitte Dutch Caribbean. The selection process for AFTA Board members was transparent and formalized. After the application process, the commission recommended two candidates to become members of the AFTA Board. Minister Wever approved these recommendations based on the commission's advice.

On Friday, October 6, 2023, Minister Geoffrey Wever introduced the two members of the AFTA Board. Mr. F.R. Sint Jago was appointed as the President of the AFTA Board, and Mr. T.M. Snoep was appointed as an ordinary member of AFTA.

For several months, Minister Wever and the implementation team have been preparing for the operationalization of AFTA. This project is funded by both Dutch and Aruban resources. In recent months, the implementation team has been working on preparations, including the AFTA website, office setup, procedures, HR policies, internal control, and profiles for AFTA Board members, among other tasks. The AFTA office is currently in its final stages of readiness for the commencement of AFTA's work for the people of Aruba.

"I am pleased that the transparent process of appointing AFTA Board members has been successfully concluded. The people of Aruba will be able to follow the implementation of AFTA's work and gain more knowledge about what AFTA means and, most importantly, the benefits of AFTA. AFTA will enhance competition among companies in Aruba, leading to better prices and higher product and service quality. AFTA is becoming a reality!" Minister Wever commented.

Take action to Prevent, Protect, and Stop Dengue

Heavy rainfall can be the beginning of a public health threat

IN the days that have passed and in the months to come, Aruba may experience heavy rainfall. Some may see this as a blessing, but it can also be the beginning of a public health threat if we, as a population, are not aware and work together to minimize the risk of mosquito-borne diseases.

As is well-known, mosquitoes need water to lay their eggs. The more water left around homes after rainfall, the greater the opportunity for mosquitoes to breed within 8-10 days.

To reduce the risk of Aruba experiencing a Dengue outbreak, as many other countries in Latin America have, it is crucial for us all to address the issue at its root. This means reducing or stopping the mosquitoes from breeding in large numbers.

This can be achieved by:

- Discarding or storing any items that can hold water unnecessarily inside and around homes, schools, workplaces, and elsewhere. For example, emptying containers under plants, tires, discarded toys, vases with plants or flowers, and more.
- Covering all purposeful water containers, such as those for watering plants or giving animals water every day. For example, cover containers under air conditioning units or barrels with rainwater and more.
- Being extra vigilant about water containers intended for life, such as plants or pets. For example, flower pots, pet water bowls, lily pad ponds, and more.

The second step is to protect yourself from getting Dengue, which you can do by:

- Wearing long-sleeved clothing during late afternoon to evening hours.
- Using mosquito repellent on uncovered skin.
- Using mosquito coils or insect repellents in outdoor spaces.
- Closing doors and windows before it gets dark or using screens.
- Avoiding visits to areas where you are aware of a high mosquito presence.
- Spraying indoors in your home, bedroom, office, and areas you regularly frequent with mosquito-killing products.

The third step is to protect others around you when you have Dengue or Dengue symptoms. You can do this by avoiding mosquito bites.

Dengue symptoms include, among others:

- Fever
- Headache
- Pain behind the eyes
- Joint and muscle pain
- Eye pain
- Rash on the body

If you experience these symptoms, consult your home doctor.

Seminar for Student-Athletes:

Opportunities in College Baseball in the USA

EDUCATIONUSA, in collaboration with UStudy and USA Baseball, is hosting an educational seminar tailored to students and parents interested in pursuing academic and baseball careers in the United States. The seminar, titled "College Baseball in the USA – What you need to know," will take place on Saturday, October 14th, at the University of Aruba from 9:00 AM to 11:00 AM.

The seminar will kick off with an introduction by Jo-Anne Croes, a student-athlete adviser at EducationUSA Aruba, who will provide insights into the possibilities and resources available in Aruba for student-athletes. Marina Meijer, an

educational and athletics adviser from UStudy, will share relevant information about selecting institutions, the application process, and available funding options.

Drew Briese, the head baseball coach at Centre College, will delve into essential points that families should consider if they aspire to reach the collegiate level in the USA. He will shed light on what head coaches look for in student-athletes, emphasizing three key aspects: Talent, Academic Achievements, and Character. While talent plays a significant role, academic achievements and character are equally vital. School performance can determine the amount of financial aid an athlete can receive, helping to offset the costs associated with their studies.

Character is what sets individuals apart, even when talent and academic scores are similar.

The seminar promises an interactive session with ample opportunities for questions. All students aged 12 to 17 with aspirations to pursue their careers as student-athletes in the United States are invited to attend this informative event. It will be held at Room 4 of the University of Aruba on October 14th, from 9:00 AM to 11:00 AM.

Due to limited seating capacity, interested participants are encouraged to register in advance to secure their spot. Registration can be completed via the following link: [Register Here](#).

This seminar provides a valuable opportunity for young athletes and their families to gain insights and guidance on pursuing both academic and athletic excellence in the United States. Don't miss the chance to learn about the exciting possibilities that await student-athletes!

Autism and ADHD in Children

Potential Association Between the Common Plastic Additive BPA and Neurodevelopmental Disorders

IN recent decades, there has been a significant surge in the diagnosis of neurodevelopmental disorders, specifically autism spectrum disorder (ASD) and attention deficit hyperactivity disorder (ADHD) among children. This phenomenon has prompted inquiries into potential underlying factors, and emerging research highlights the plausible involvement of bisphenol A (BPA), a ubiquitous plastic additive.

BPA finds extensive utilization in plastic manufacturing processes and is notably present in various food and beverage containers. Extensive prior investigations have linked BPA to endocrine disruption and associated health concerns, including but not limited to breast cancer and infertility.

The current study, conducted by researchers from Rowan University and Rutgers University in the United States, undertook a comprehensive examination involving three distinct cohorts of children. These comprised 66 individuals with ASD, 46 with ADHD, and 37 neurotypical counterparts. The primary focus of this investigation centered on elucidating the glucuronidation process—an enzymatic mechanism employed by the body to eliminate toxins from the bloodstream via urinary excretion.

Findings from the study delineate that children diagnosed with ASD and ADHD exhibit diminished efficiency in clearing BPA and a congeneric compound known as Diethylhexyl Phthalate (DEHP) from their physiological systems in comparison to their neurotypical peers. Consequently, this impaired detoxification process may engender prolonged exposure to the deleterious effects associated with these

compounds.

Of particular note, the study reveals a statistically significant contrast in the clearance rates of BPA. Specifically, children with ASD manifest an 11% reduction in clearance efficiency, while children with ADHD exhibit a more pronounced 17% reduction relative to the control cohort.

The underlying hypothesis posits that inherent genetic variations within certain individuals may impede the effective clearance of BPA, thereby facilitating its persistence within the biological milieu. Such protracted exposure to BPA is surmised to potentially exert adverse repercussions on neuronal development and functioning.

It is imperative to recognize that the etiology of ASD and ADHD is multifaceted, arising from a complex interplay between genetic predispositions and environmental influences. Therefore, while this study underscores the plausible connection between BPA exposure and the manifestation of these neurodevelopmental disorders, it is essential to emphasize that causality remains unestablished. Subsequent research endeavors are warranted to unravel the intricate web of factors contributing to the pathogenesis of these conditions.

The burgeoning body of evidence pointing to the association between neurodevelopmental disorders and environmental contaminants, particularly plasticizers, is noteworthy. The current study serves as a pivotal milestone in shedding light on the potential nexus between plasticizer-induced neurodevelopmental disorders and underscores the exigency of further investigations in this domain.

Israel Declares War Against Hamas

ON October 7, 2023, Israel declared war against Hamas, a Palestinian militant organization. This comes after Hamas launched a surprise attack on Israel earlier, which killed about 250 people, mostly civilians.

The attack involved rocket strikes on Israeli cities and towns, including Tel Aviv, Jerusalem, and Haifa. The rockets caused significant damage to property and infrastructure, resulting in many civilian deaths and thousands more injured, including children and the elderly.

The Israeli military responded to the attack with a series of airstrikes on Hamas targets in the Gaza Strip. The airstrikes also caused significant damage and resulted in the deaths of several Hamas militants.

The Israeli government stated that the war would continue until Hamas could no longer launch attacks on Israel. The declaration of war by Israel is a significant escalation of the conflict between Israel and the Palestinians. It also indicates that Israel is determined to end Hamas' rocket attacks.

The United Nations Security Council has called for an immediate ceasefire between Israel and Hamas. However, whether either side is willing to comply with the ceasefire call is unclear.

It is hoped that the international community will continue to work to de-escalate the conflict and prevent further bloodshed.

Israeli Forces Launch Operations to Rescue Hostages and Repel Palestinian Militants

ISRAELI security forces have initiated a series of operations aimed at freeing hostages taken by Palestinian militants from Gaza and regaining control of areas seized during a surprise attack on Saturday. The attack, orchestrated by hundreds of Hamas gunmen amidst a barrage of rocket fire, has left a reported 600 people dead in Israel and over 310 in Gaza due to Israeli retaliatory strikes.

Israeli troops have secured 22 locations in southern Israel but are still engaged in clearing another eight. The Palestinian militants involved in the assault, estimated to be in the high hundreds, used various means to breach the Gaza perimeter fence, including motorbikes, paragliders, and sea crossings. They launched more than 3,000 rockets towards Israeli cities and towns throughout the day, striking numerous communities and military bases.

Lt Col Jonathan Conricus, an Israel Defense Forces (IDF) spokesman, revealed the brutal tactics employed by the militants, including the execution of Israeli civilians in their homes and the abduction of civilians and military personnel, including women, children, the elderly, and the disabled.

The death toll in Israel, which includes reports from Israeli TV channels, has reportedly surpassed 600, with more than 2,000 others injured. Israeli security forces have successfully rescued numerous hostages, with almost 50 found in

one small community.

Nevertheless, shootings persisted in communities near Gaza through Sunday morning. In one dramatic incident near Ashkelon, Israeli forces engaged Palestinian gunmen in a stolen car, resulting in their deaths.

The IDF continues to clear areas “clean of terrorism,” including the towns of Sderot and Kfar Aza, where hostages are reportedly held. Concerns grow for the “significant number” of Israeli soldiers and civilians held hostage in Gaza.

Prime Minister Benjamin Netanyahu warned Hamas that Israel held it responsible for the hostages’ well-being and vowed to use all available strength to destroy Hamas’s capabilities. Gaza has witnessed a change in atmosphere from celebration to fear, with many residents staying indoors amidst explosions and smoke.

The conflict has also spilled over into southern Lebanon, with the IDF striking targets in response to a Hezbollah attack. Meanwhile, in a separate incident, two Israeli tourists and their Egyptian guide were reportedly shot dead in Egypt, the motives of which remain unclear.

As the situation continues to escalate, the international community watches with growing concern, hoping for a swift and peaceful resolution to the ongoing crisis.

Nobel Peace Prize Awarded to Iranian Activist Narges Mohammadi

IN a momentous announcement, Narges Mohammadi, an Iranian activist known for her relentless dedication to human rights and the empowerment of women, has been awarded the Nobel Peace Prize. The committee chairwoman, Berit Reiss-Andersen, emphasized that Mohammadi's unwavering commitment came at a "tremendous personal cost," highlighting the immense sacrifices she has made in her pursuit of justice.

Currently incarcerated in Tehran's infamous Evin prison, Mohammadi is serving a 10-year sentence. The Iranian government swiftly dismissed the award, branding it as "biased" and aligned with "the interventionist and anti-Iran policies of some European countries."

World leaders, on the other hand, rallied behind Mohammadi. US President Joe Biden called for her release and praised her "unshakeable courage," while French President Emmanuel Macron hailed her as a "freedom fighter."

At the award ceremony in Oslo, Reiss-Andersen lauded Mohammadi's efforts to combat the oppression of women in Iran and promote human rights and freedom. She emphasized that the Nobel Prize was not just an accolade for Mohammadi but also recognition of the hundreds of thousands of Iranians who had protested against discriminatory policies and oppression, led by the newly minted laureate.

The Nobel committee's decision serves as a resounding condemnation of Iranian authorities' actions, sending a powerful message of disapproval. Reiss-Andersen also implored Iran to release Mohammadi, allowing her to attend the December prize ceremony, though the likelihood of this

happening remains uncertain.

The United Nations commended the award, highlighting its significance in showcasing the courage and determination of Iranian women, who serve as an inspiration worldwide. Nazanin Zaghari-Ratcliffe, a British-Iranian who shared Evin prison with Mohammadi, expressed her joy, describing Mohammadi as an inspiration for her fearless fight against violations of women's rights.

Mohammadi's son, Ali Rahmani, learned of his mother's achievement while in class. He expressed his pride and happiness, asserting that the award belonged to the Iranian people and was a result of their protests.

Mohammadi's journey has been fraught with adversity, including 13 arrests, five convictions, and a cumulative prison sentence of 31 years, along with a sentence of 154 lashes. She had also exposed the harrowing abuse suffered by Iranian women in detention during the protests, which were ignited by the tragic death of Mahsa Amini in police custody.

Despite the challenges, Mohammadi remains dedicated to advancing women's rights and human rights in Iran. Her recognition as a Nobel laureate further underscores the importance of her tireless efforts on the global stage.

Detention of American Tourist for Defacing Ancient Roman Statues at the Israeli Museum

IN a disconcerting turn of events, Israeli law enforcement has taken into custody an American tourist at the Israel Museum in Jerusalem for perpetrating acts of vandalism, which resulted in damage to two second-century Roman statues. This incident has raised significant inquiries into the preservation of Israel's invaluable cultural heritage and has drawn attention to the mounting occurrences of attacks on cultural assets within Jerusalem.

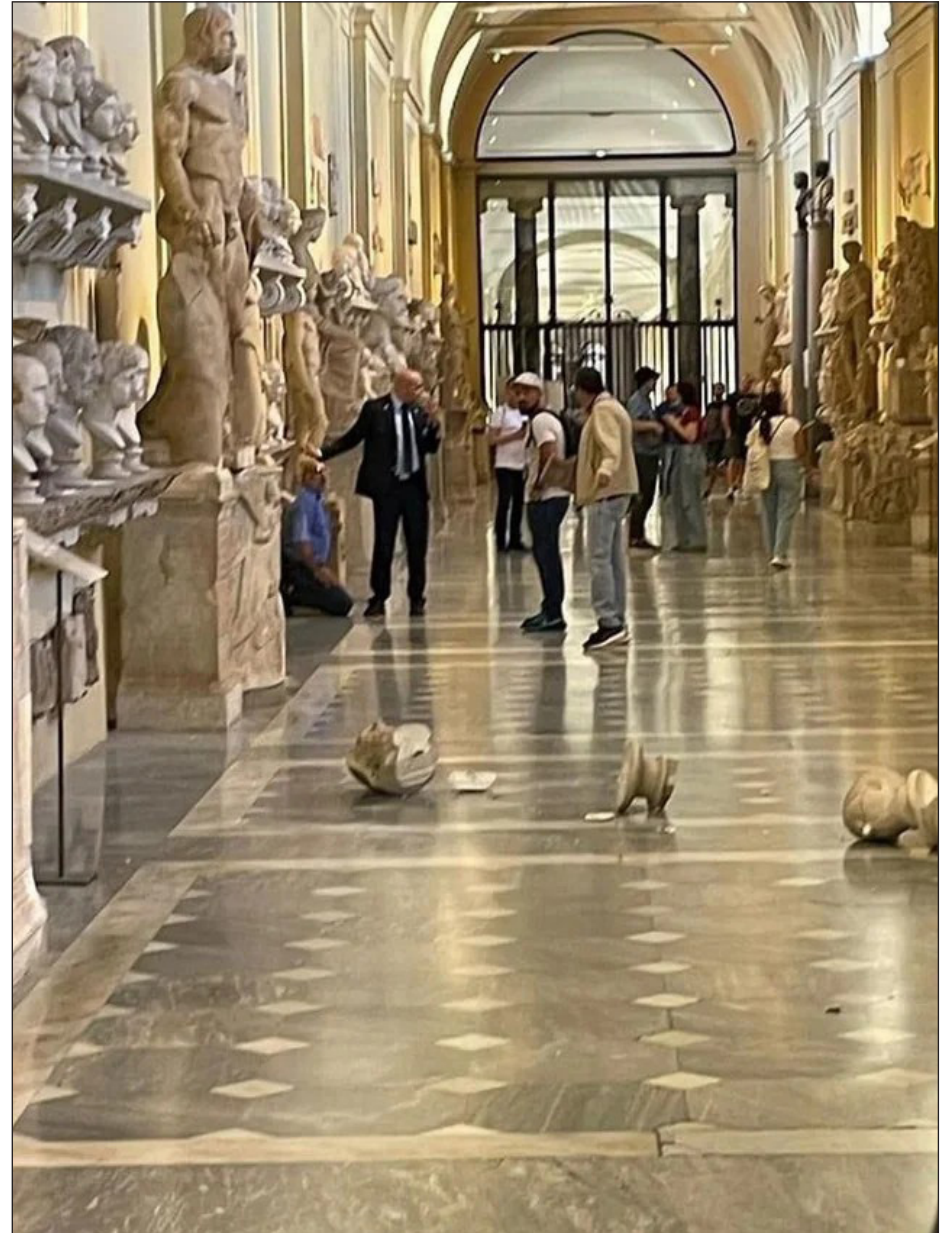

The individual in question, identified by authorities as a 40-year-old Jewish American tourist, is believed to have acted out of a conviction that the statues were "idolatrous and contrary to the Torah." Preliminary investigations suggest a religious motivation behind his actions.

Conversely, the legal representative for the tourist, Nick Kaufman, vehemently refuted claims of religious extremism. Kaufman contended that his client was afflicted by a mental disorder commonly referred to as the "Jerusalem syndrome." This psychological condition, characterized by disorientation and often associated with the profound religious significance of the city to Christians, Jews, and Muslims, can induce individuals to perceive themselves as biblical figures. Subsequently, the defendant has been mandated to undergo a comprehensive psychiatric evaluation. To preserve the individual's anonymity, authorities have imposed a judicial order, preventing the disclosure of his identity.

These occurrences have transpired against a backdrop of heightened religious fervor and simmering tensions during the Jewish holiday season. There has been a discernible escalation in incidents, including spitting and physical assaults, targeting Christian worshippers, primarily perpetrated by radical ultra-Orthodox Jews. These actions have not only disconcerted tourists but have also elicited indignation within the local Christian community and prompted widespread condemnation. The Jewish festival of Sukkot, signifying the harvest season, concluded at sundown on Friday.

The Israel Museum, renowned for its comprehensive exhibitions spanning archaeology, fine arts, and Jewish art and culture, characterized the act of vandalism on Thursday as a "disturbing and atypical incident." The institution unequivocally denounced all forms of violence and expressed a fervent desire that such regrettable incidents would not recur.

Photographic documentation from the museum depicted

the marble head of the goddess Athena dislodged from its pedestal and resting on the floor, alongside a statue of a pagan deity shattered into multiple fragments. Ongoing efforts are being made to restore the damaged statues. For the time being, the museum has refrained from disclosing the precise value of the statues or the associated cost of restoration.

The Israeli government has conveyed profound apprehension regarding this incident of defacement, attributing it to a manifestation of Jewish iconoclasm rooted in ancient prohibitions against idol worship. Eli Escusido, Director of the Israel Antiquities Authority, characterized this incident as a "distressing instance of cultural heritage destruction" and underscored the troubling trend of cultural assets being targeted by religiously motivated extremists.

Despite these challenges, the Israel Museum resumed its regular public operating hours on Friday morning, approximately 16 hours subsequent to the occurrence of the vandalism.

In-Depth Examination of the Seismic Incident in Southern Mexico

ON the night of Friday, a seismic occurrence measuring 5.9 in magnitude shook the southern regions of Mexico, causing alarm systems to be triggered as far away as Mexico City. Fortunately, there have been no immediate reports of damage resulting from this event. As reported by the U.S. Geological Survey, the earthquake took place shortly after 11 p.m. local time, near the town of Matias Romero, located in the southern state of Oaxaca. The earthquake's epicenter was situated at a depth of 67 miles (108 kilometers).

Oaxaca's civil defense agency swiftly initiated monitoring protocols to assess any damage that may have occurred due to the earthquake. It is important to note that the capital of Oaxaca experienced significant tremors. During the seismic event, a musical performance at a crowded amphitheater was briefly halted, and the performers were promptly evacuated from the stage. It is noteworthy, however, that the audience remained composed.

Governor Salomón Jara Cruz of Oaxaca employed the social media platform X to call for calm among the population. He also conveyed that state authorities were diligently evaluating the potential impacts of the earthquake across the

region.

In the neighboring state of Veracruz, the civil defense agency reported that the earthquake's effects were perceptible in certain areas. Nevertheless, there have been no initial reports regarding damage or injuries resulting

from the seismic activity.

It is worth noting that seismic alarms in Mexico City were activated, prompting residents to evacuate their homes and seek refuge in the streets. However, in most areas, the earthquake's intensity was not significantly felt.

Diamondbacks Dominate Dodgers in NLDS Opener with 11-2 Rout

IN a stunning turn of events, the Arizona Diamondbacks launched a relentless offensive assault on Clayton Kershaw and the Los Angeles Dodgers in Game 1 of the National League Division Series. The Diamondbacks emerged victorious with an impressive 11-2 win, marking an unforgettable night at Dodger Stadium.

The game commenced with an unexpected encounter between Merrill Kelly and Clayton Kershaw, as they exchanged acknowledgments while warming up in the outfield. Little did they know that this moment would precede an extraordinary performance by Kelly and a challenging outing for Kershaw.

The Diamondbacks wasted no time asserting their dominance, delivering a barrage of runs in the first inning. Gabriel Moreno's three-run home run ignited a spectacular six-run inning for Arizona. Corbin Carroll, Alek Thomas, and Tommy Pham also contributed to the offensive showcase with their home runs. This early offensive onslaught sent shockwaves through the stadium and set the tone for the remainder of the game.

Merrill Kelly, making his postseason debut at the age of 34, hushed the skeptics with a stellar performance on the mound. Despite entering the game with an 0-11 record and a 5.49 ERA in 16 starts against the Dodgers, Kelly showcased unwavering composure. He held the NL West champions to a mere three hits in 6 1/3 innings, displaying remarkable control and precision. Kelly's dominant outing included an impressive stretch where he retired 11 consecutive Dodgers batters.

Kelly's performance left Dodgers manager Dave Roberts acknowledging the challenge his team faced. The Dodgers struggled to find an answer to Kelly's pitching, unable to mount a substantial offensive threat throughout the game.

For Clayton Kershaw, a three-time Cy Young Award winner, the night took an unexpected and humbling turn. Kershaw endured the worst start of his illustrious 16-year career, lasting just one-third of an inning. He conceded six runs and left the field with a sense of disappointment.

Reflecting on his performance, Kershaw expressed his frustration, describing it as "embarrassing" and lamenting that he felt he had let down his team and fans.

The 11-2 defeat marked one of the most significant postseason losses in Dodgers' franchise history. It also marked the second time in three years that the Dodgers have stumbled in Game 1 of the NLDS.

With Game 2 of the series on the horizon, both teams are gearing up for what promises to be an intriguing continuation of their postseason battle. The Diamondbacks will seek to maintain their momentum, while the Dodgers aim to regroup and mount a comeback.

Simone Biles:

Triumphantly Soaring to New Heights in Gymnastics

SIMONE Biles, the undisputed queen of gymnastics, has once again captivated the world with her astounding performances at the Artistic Gymnastics World Championships. Her journey to this moment, marked by resilience, determination, and unwavering dedication, has been nothing short of inspirational.

Biles took a two-year break from competitive gymnastics, a hiatus born out of the mental block known as the “twisties” that plagued her during the 2020 Tokyo Olympics. The twisties, a phenomenon causing gymnasts to lose their sense of positioning midair, could have derailed any athlete’s career. But not Simone Biles.

Her triumphant return to the sport, where she’s already made history as the most decorated female or male gymnast, began with a gold medal in the women’s team competition. It was a reminder of her extraordinary talent and resilience. But she didn’t stop there.

The all-around competition saw Biles clinch her sixth world title. This remarkable achievement established her as the pinnacle of gymnastics, a title she wears with grace and humility. Her journey, however, had its challenging moments.

On one Saturday of the championships, Biles had a day that fell short of her lofty standards, securing silver in the vault and placing fifth in the uneven bars. These are apparatuses where she has been nothing short of exceptional over the years. But true champions rise above adversity.

On Sunday, Biles demonstrated her mettle once again. She

conquered the beam, executing all the required elements with perfection. The narrow margin that separated her from the silver medalist, Zhou Yaqin, showcased the intensity and competition at the highest level of gymnastics. Biles secured her 23rd world championship gold medal.

But she didn’t stop there. Later that day, she soared to her fourth gold in the floor exercise. Biles displayed the same precision and grace that have become her trademarks throughout her illustrious career.

In total, Simone Biles boasts an incredible 30 career medals at the world championships, including 23 golds. Her accomplishments extend beyond the championships, with a record-breaking 37 total medals across both the Olympics and the world championships.

Simone Biles’ journey is not just about medals and records; it’s about tenacity, courage, and a relentless pursuit of excellence. She faced adversity, embraced it, and emerged stronger than ever. Her remarkable story serves as an inspiration to all, reminding us that, with determination and unwavering commitment, we can overcome any challenge that life throws our way.

As we witness Simone Biles continue to defy gravity and redefine what’s possible in gymnastics, we celebrate not just her extraordinary talent but also the indomitable spirit that makes her a true champion. Simone Biles is more than a gymnast; she’s a symbol of resilience, courage, and the power of the human spirit to triumph over adversity.

Resignation of UEFA Vice President Karl-Erik Nilsson as Leader of Swedish Sports

KARL-ERIK Nilsson, UEFA's second-in-command, has tendered his resignation as the leader of sports in Sweden following revelations surrounding his vote in favor of lifting Russia's comprehensive ban from European football. Nilsson, who had assumed the role of Chair of the Swedish Sports Confederation merely four months ago, candidly acknowledged that his decision had eroded trust in his leadership.

This development transpired subsequent to Sky News' disclosure of Nilsson's vote within a UEFA assembly, precipitating a week of extraordinary deliberations. The Swedish Sports Confederation, in conjunction with the nation's football federation, had steadfastly opposed the involvement of Russian teams in international competitions since Russia's military incursion into Ukraine in February 2022. Paradoxically, as UEFA's First Vice President, Nilsson cast his vote favoring the participation of Russia's under-17 teams in UEFA tournaments.

In his official statement, Nilsson conveyed the arduousness

of his choice to step down, underscoring his deep commitment to his role. Nonetheless, he acknowledged the formidable challenge of reconciling his dual responsibilities, exacerbated by the erosion of trust in his capabilities within the realm of Swedish sports.

Initially, Nilsson endeavored to dispute the accuracy of Sky's reporting concerning his vote but subsequently issued a statement aimed at rationalizing his decision. Regrettably, heightened scrutiny from within Sweden compelled him to relinquish his position within the Swedish Sports Confederation.

Nilsson's statement alluded to the adverse media attention he had garnered, which had subjected him to personal attacks and acrimony. His departure amplifies Sweden's resolute stance against the participation of Russia and Belarus in international sporting events, a position rooted in persistent concerns regarding Russia's aggressive actions in Ukraine.

Anna Iwarsson has been designated as the Acting Chair of the Swedish Sports Confederation, affirming that the Nordic consensus concerning Russia's and Belarus's participation in international sports remains unwavering, given the ongoing hostilities involving Russia in Ukraine. Nilsson's tenure at the helm of Swedish sports, though brief, was impactful, commencing in May of the same year.

Max Verstappen Secures Third Consecutive F1 World Championship Title

As Oscar Piastri Triumphs Qatar Grand Prix Sprint

IN a thrilling turn of events at the Qatar Grand Prix Sprint, Max Verstappen claimed his third consecutive Formula 1 World Championship title. Verstappen's remarkable feat was sealed by finishing second in the race, right behind Oscar Piastri. This achievement solidifies Verstappen's place among the sport's legends, making him the 11th driver to secure at least three championship titles and only the fifth to accomplish a hat-trick of titles in consecutive seasons.

The defining moment of the race occurred when Verstappen's Red Bull teammate, Sergio Perez, who was his closest competitor for the championship, crashed out on the 11th lap. This incident, coupled with Verstappen's consistently dominant performance throughout the season, underscored the historical significance of his achievement.

Max Verstappen's victory also marked the first time a driver clinched the championship in a Sprint event. The Sprint format, introduced on select Saturdays starting in 2021, has injected new excitement into the sport. Verstappen's triumph came with six Grands Prix still remaining in the season, commencing with the upcoming race in Qatar.

Starting from pole position, McLaren's rising star, Oscar Piastri, exhibited exceptional skill and determination as he retook the lead from Mercedes' George Russell to secure his inaugural F1 Sprint victory. Piastri's remarkable performance hints at a promising future in which he may challenge Verstappen and other seasoned drivers for championship titles.

With his third championship secured, Max Verstappen joins the elite ranks of motorsport legends such as Ayrton Senna, Niki Lauda, and Jackie Stewart. Notably, Lewis Hamilton and Michael Schumacher currently share the record for the most

championship titles, each having won the title seven times.

Verstappen's triumphant moment arrived with an insurmountable 184-point lead over his teammate, Sergio Perez. This substantial margin, combined with the remaining points available in the six Grands Prix and two Sprints, left Verstappen in an unassailable position.

Reflecting on his achievement, Max Verstappen expressed his elation and pride in the team's remarkable performance throughout the year. He emphasized his dedication to pushing the boundaries and striving for excellence. Verstappen also acknowledged the excitement of the race, despite the challenges posed by Safety Cars, and conveyed his immense happiness.

In an eventful Qatar Grand Prix Sprint, Lando Norris showcased his resilience by recovering from an early setback that saw him drop from second to sixth place on the opening lap. Norris ultimately secured the final podium spot. George Russell and Lewis Hamilton, representing Mercedes, finished in fourth and fifth place, respectively, with Hamilton notably starting from 12th on the grid.

Max Verstappen's third consecutive championship victory has solidified his status as one of the sport's greats, and fans eagerly anticipate the remaining races of the season to witness more spectacular moments on the Formula 1 circuit.

Leigh Wood Stages Remarkable Comeback to Secure WBA Featherweight Title

IN a boxing match that will be remembered for years to come, Leigh Wood, the underdog from Nottingham, orchestrated a stunning comeback to claim the WBA featherweight title against Josh Warrington. The fight took an unexpected turn, leaving fans and pundits in awe of Wood's resilience and determination.

Entering the sixth round, Wood appeared to be on the verge of surrender. Headlines were being drafted, and his supporters had fallen silent. The odds seemed stacked against him, with his opponent, Warrington, seemingly in control and on the path to victory.

However, Wood, a man accustomed to turning the tide when all seems lost, had other plans. He referred to his remarkable victory as a "Cinderella story," a fitting description for a fighter who has experienced setbacks and defied the odds throughout his career.

Wood's career had faced a critical juncture in 2020 when he suffered a defeat at the hands of Jazza Dickens, causing him to lose his WBO European featherweight title. A year out of the ring followed, compounded by the challenges posed by the global pandemic. Wood found himself in his mid-30s with discussions of retirement in the air. Many believed he couldn't compete at the highest level any longer.

However, since 2021, Wood has experienced a resurgence, showcasing a level of determination and momentum that

has left the boxing world in awe. He secured the WBA title from Xu Can, defended it with a 12th-round knockout against Michael Conlan, and then avenged his loss to Mauricio Lara. The crowning moment of Wood's career arrived in Sheffield when he faced Warrington. The fight was a rollercoaster, with Wood weathering early storms from Warrington and finding himself in precarious situations. Yet, just as he has done throughout his career, Wood refused to quit.

The turning point came when Wood unleashed a devastating left hook, exploiting a momentary lapse in Warrington's defense. What followed was a flurry of punches, concluding with a decisive strike to Warrington's left temple, sending the challenger to the canvas and out of the fight.

Wood's remarkable journey to victory serves as an inspiration to all who face adversity. He attributes his success to his dedicated team, acknowledging that they have transformed him as a fighter. The 35-year-old fighter from Nottingham may have endured his share of setbacks, but he proved that he possesses an indomitable spirit.

As for Josh Warrington, the two-time world champion, his immediate future remains uncertain. Despite back-to-back defeats, he demonstrated resilience and skill in the early rounds, suggesting that retirement might not be on the horizon. Talk of a rematch lingers, with both fighters and their teams open to the idea, albeit potentially in a different weight class.

The boxing world eagerly awaits a possible rematch, should it materialize. Regardless of what lies ahead, Leigh Wood's victory will be etched in boxing history as a testament to the power of determination, grit, and the refusal to give up, even when the odds appear insurmountable.

ChatGPT:

Bridging Educational Gaps for AI??

IN an era dominated by technological advancements, artificial intelligence (AI) is emerging as a powerful ally in the quest to bridge educational disparities. These AI-driven tools, exemplified by ChatGPT and similar innovations, hold the potential to level the playing field for individuals with limited access to traditional education.

Here, we delve into the manifold ways in which AI can transform the educational landscape and promote equitable learning opportunities for all.

1. Accessible Information: One of the most profound impacts of AI is its ability to provide instantaneous access to information and knowledge, regardless of an individual's educational background. Through AI-driven platforms like ChatGPT, users can pose queries and receive comprehensible explanations spanning a wide array of subjects. This accessibility fosters a culture of lifelong learning, transcending traditional educational boundaries.

2. Language Assistance: For those grappling with limited language skills or literacy, AI-powered tools can serve as invaluable aids in language comprehension and communication. Such technologies aid users in improving their linguistic prowess and expressing themselves more effectively.

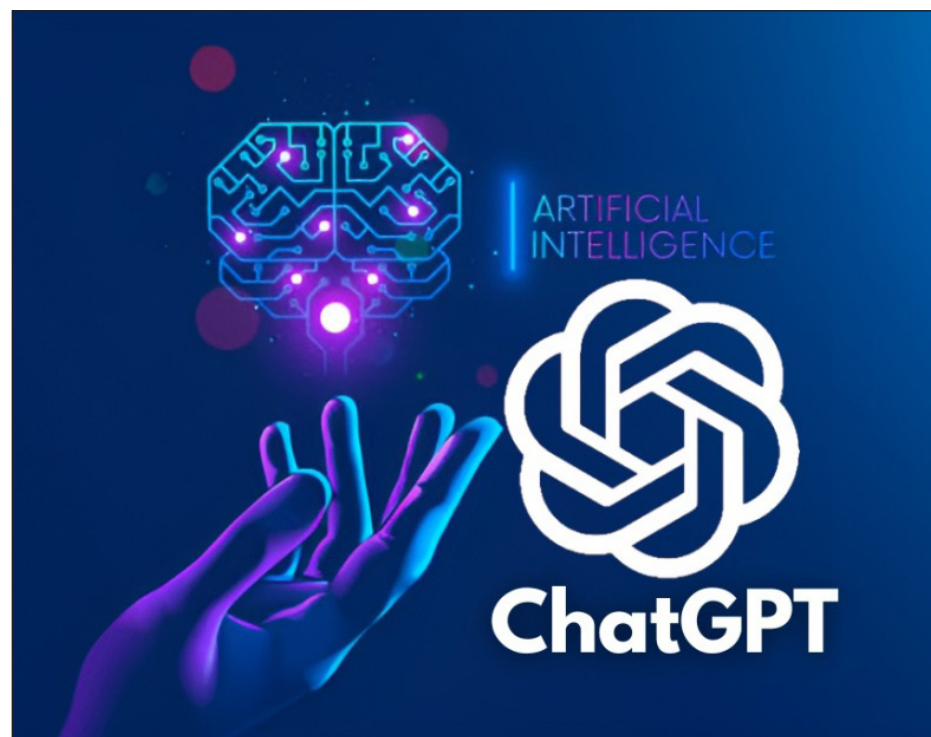

3. Personalized Learning: AI-driven chatbots employ adaptive learning techniques, tailoring educational content to the user's proficiency level. This personalized approach empowers individuals to acquire knowledge at their own pace, irrespective of their educational history.

4. Skill Development: AI-guided platforms offer guidance and tutorials on practical skills, ranging from basic computer literacy to vocational training. This equips individuals with valuable competencies that enhance their employability prospects.

5. Career Assistance: Users with limited educational backgrounds can harness the power of AI for career guidance. Chatbots assist in exploring various career avenues, identifying relevant job opportunities, and even offering tips for successful interviews.

6. Healthcare Information: Access to health-related knowledge is particularly vital for those with limited formal education. AI-driven tools like ChatGPT can furnish accurate health advice, elucidate medical terminology, and bolster health literacy.

7. Financial Literacy: Many individuals with less education encounter financial challenges. AI-powered platforms extend financial guidance, expound on budgeting principles, and proffer insights into effective money management.

8. Digital Inclusion: As the world undergoes rapid digitization, those with limited formal education may find themselves marginalized. AI tools can offer indispensable counsel on utilizing digital resources, accessing online services, and comprehending digital security.

9. Support for Disabilities: AI chatbots play a pivotal role in supporting individuals with disabilities, including those with speech or hearing impairments. They render information and assistance more accessible and inclusive.

10. Global Reach: AI tools possess the remarkable capacity to be deployed globally, thus bridging educational gaps in regions where traditional educational resources are scarce.

11. Low-Cost Education: Leveraging AI, platforms like ChatGPT can offer educational support that is either free or available at minimal cost. This, in turn, alleviates the financial burden associated with formal education.

12. Empowerment: Ultimately, AI chatbots empower individuals to become self-reliant, confident, and proficient in various facets of life, irrespective of their educational history.

It is paramount to emphasize that AI should complement, not replace, comprehensive educational systems. Its role lies in augmenting traditional education and offering support to individuals on their learning journeys. Furthermore, ensuring equitable access to technology and AI tools is pivotal in genuinely equalizing opportunities for those with limited educational backgrounds.

In a world characterized by rapid technological progress, AI is emerging as a beacon of hope, illuminating the path to inclusive education and empowering individuals to transcend educational constraints.

The Growing Trend of Vertical Farming

IN recent years, a groundbreaking agricultural practice has emerged, reshaping the way we think about farming and food production. Vertical farming, a method that involves growing crops in vertically stacked layers or inclined surfaces, is gaining significant attention for its innovative approach to addressing the challenges of traditional agriculture. This article delves into the world of vertical farming, highlighting its key aspects and potential impacts on our food systems.

Maximizing Space and Resources

One of the most striking features of vertical farming is its efficient space utilization. Unlike conventional horizontal farming, which relies on extensive land areas, vertical farming takes agriculture to new heights—literally. Crops are grown in controlled indoor environments, such as warehouses, shipping containers, or specialized vertical towers, with crops stacked one above the other. This means that a fraction of the land area is needed to achieve similar or even higher yields.

Hydroponics and Aeroponics

Vertical farms often employ hydroponic or aeroponic systems, removing the need for soil. Instead, plants are nurtured in nutrient-rich water or mist. This method has several advantages, including reduced water usage, decreased reliance on pesticides, and enhanced crop growth. Moreover, it allows for precise control of environmental factors, including temperature, humidity, and light, resulting in optimal conditions for plant growth.

Diverse Crop Selection

Vertical farming isn't limited to specific types of crops. In fact, a wide range of produce, from leafy greens and herbs to strawberries and even small fruit trees, can be cultivated within these vertical environments. Crop selection is adaptable to available space and tailored to meet specific environmental conditions.

Year-Round Production

One of the most compelling advantages of vertical farming is its ability to produce crops year-round. Unlike traditional farming, which is often subject to seasonal variations and climate constraints, vertical farming operates independently of external conditions. This is a game-changer for regions with challenging climates or limited arable land.

Reduced Land Footprint and Sustainability

Vertical farming is inherently sustainable. It reduces the land footprint required for agriculture, a critical consideration in urban areas where space is at a premium. Moreover,

this approach minimizes water usage and lowers the need for pesticides. By locating farms near urban centers, vertical farming shortens the distance between production and consumption, decreasing carbon emissions associated with long-distance food transportation.

Challenges and Future Prospects

While vertical farming offers numerous benefits, it is not without its challenges. Initial setup costs can be substantial, and the energy required for climate control poses economic considerations. Furthermore, expertise in hydroponics or aeroponics is essential for successful implementation.

Despite these challenges, vertical farming continues to gain momentum. As technology evolves and the demand for locally sourced, sustainable food grows, vertical farming stands as a beacon of innovation in agriculture. Its potential to transform urban farming and contribute to sustainable food production makes it a compelling subject of interest in the agricultural industry.

In conclusion, vertical farming represents a revolutionary approach to agriculture, maximizing space, conserving resources, and enabling year-round production of diverse crops. Its potential to reshape urban agriculture and address sustainability concerns positions it as a driving force in the future of food production.

Amazon Faces Unprecedented Drought Leading to Dolphin Deaths

THE Amazon rainforest is grappling with an unprecedented drought, resulting in a series of unprecedented events. Over 120 dolphins have been found dead in recent days in Lake Tefé, an extension of the Amazon River. The dolphin carcasses began appearing on September 23, with a peak of 70 bodies on September 28, a day when the water temperature reached a scorching 39°C. While scientists are still investigating the exact cause of this mass dolphin mortality, it is undeniably linked to the ongoing climate emergency.

The rapid and drastic drop in water levels, with the river's flow decreasing by half, coupled with extremely high temperatures, has significantly altered water conditions. Factors such as organic matter concentration and oxygen levels have been affected. Researchers are exploring the hypothesis that the exceptionally high water temperature, eight degrees above the norm, may have generated biotoxins, weakening the dolphins and preventing their escape from the lake. "On the 28th, the water reached 39°C, almost 40°C, and the dolphins seemed very uncomfortable. It was evident in their behavior; they couldn't dive to the bottom, swam in circles, and some died right before us," explained Miriam Marmontel, a biologist leading the investigation.

The deceased dolphins belong to two species: the boto, or pink river dolphin, endemic to the Amazon basin and currently endangered, and the tucuxi, another freshwater dolphin species found in the Amazon and other South American rivers. These 120 bodies were discovered within just a few days in Lake Tefé, situated in the heart of the Brazilian state of Amazonas, described as "the most preserved area of the forest." Leticia Lima, a Brazilian researcher from ICTA-UAB, emphasized that the region lost approximately 5% to 10% of its dolphin population in a single week.

The team led by Marmontel conducted autopsies on dozens of deceased dolphins, collecting samples for laboratory analysis and conducting PCR tests. While high temperatures are a factor, Marmontel believes there must be more to the explanation, as these intelligent animals are familiar with the area. She noted a strange algae bloom in Lake Tefé on Tuesday, leading to the suspicion that a similar occurrence may have preceded the mass deaths.

The dire water conditions in the Amazon have not only impacted dolphins but also resulted in thousands of dead fish in various parts of the vast South American river.

Additionally, the drought's consequences have severely affected rural communities known as ribeirinhos, dependent on the river for transportation and access to healthcare and other services. The drought has isolated them, impeding the flow of essential medical supplies and food. Traditional Brazilian communities have been left in a precarious situation.

The historic drought and extreme temperatures in the Amazon basin can be attributed to two critical factors: the arrival of El Niño, a meteorological phenomenon that warms Pacific Ocean waters and temporarily alters climate patterns worldwide, and the exceptionally high temperatures in the North Atlantic. Lima explained that previous major droughts in the Amazon, in 1997-98, 2005, 2010, and 2014-15, were associated with either El Niño or North Atlantic overheating. The combination of both factors, as seen now, results in the most severe consequences. The North Atlantic experienced record temperatures this summer, coinciding with global ocean warming records and other climate emergency milestones. Scientists believe the worst of El Niño's impacts will occur next year, suggesting that the situation in the Amazon may worsen in 2024, posing additional challenges to the already fragile ecosystem.

In fact, Lima was among 72 scientists and academics who signed a letter to the Brazilian Parliament on September 20, warning of the potential consequences of the conjunction of these two phenomena. The rapid progression of the drought has surprised even scientists, underlining the unmistakable influence of climate change on the unprecedented mass deaths of dolphins and fish. This event is an ominous warning of the ecological challenges the Amazon and its inhabitants face due to the ongoing climate crisis.

Maurice Ravel's Boléro:

A Timeless Musical Journey

MAURICE Ravel, a French composer of the 20th century, left an indelible mark on the world of classical music. Among his many works, “Boléro” stands as a masterpiece that has captivated audiences for decades. This article delves into the life of Maurice Ravel and explores the meaning and significance of his iconic composition, “Boléro.”

The Life of Maurice Ravel:

Maurice Ravel was born on March 7, 1875, in Ciboure, France. He exhibited an extraordinary talent for music from an early age, and his formal training began at the Paris Conservatoire, where he honed his skills as a composer and pianist. Ravel's compositions are characterized by their meticulous craftsmanship and innovative use of harmony, orchestration, and form.

Ravel's musical career was marked by his refusal to adhere to a single style or school of composition. He drew inspiration from various sources, including impressionism, neoclassicism, and exoticism. This eclecticism allowed him to create a diverse body of work that includes orchestral pieces, piano compositions, chamber music, and operas.

The Birth of “Boléro”:

In 1928, Ravel composed “Boléro” at the request of the Russian ballet dancer and actress Ida Rubinstein. The piece premiered in November of the same year, featuring Rubinstein as the solo dancer. What makes “Boléro” particularly intriguing is its simplicity and repetitiveness.

The Meaning of “Boléro”:

“Boléro” is often described as a musical crescendo, a gradual and relentless increase in intensity. The piece begins with a simple snare drum rhythm, which is repeated throughout the composition. Over this rhythmic foundation, Ravel introduces a melody that is equally straightforward but immensely captivating.

The music of “Boléro” is like a hypnotic trance, drawing listeners into its repetitive, alluring rhythm. As the piece progresses, Ravel employs the full orchestra to build layer upon layer of sound. The result is a mesmerizing journey that culminates in a powerful and dramatic climax.

Interpreting the meaning of “Boléro” can be subjective. Some listeners find it to be a celebration of sensuality and passion, while others see it as a representation of relentless determination. Its repetitive nature can evoke a sense of inevitability, akin to the inexorable march of time.

Conclusion:

Maurice Ravel's “Boléro” remains a timeless and enigmatic piece of music. Its hypnotic rhythm, simple melody, and gradual crescendo have fascinated audiences for generations. Ravel's ability to create such depth and intensity from minimal material is a testament to his genius as a composer. “Boléro” continues to be celebrated and performed, reminding us of the enduring power of music to captivate and move the human spirit.

“Cat’s in the Cradle”

A Heartfelt Tale of Missed Moments

“**CAT’S** in the Cradle,” a song penned by the talented Harry Chapin and Sandy Chapin in 1974, stands as a poignant musical masterpiece that weaves a heart-rending narrative about the ebb and flow of family relationships, missed opportunities, and the inexorable passage of time. With lyrics that tug at the very core of our emotions, this song has touched countless hearts and continues to resonate with listeners across generations.

The Tale Unfolds:

At its heart, “Cat’s in the Cradle” is a story of a father and son, their hopes, dreams, and the stark reality of life’s demands. The song opens with the joy of a new father holding his son, an innocent soul brimming with potential. However, it doesn’t take long for the plot to take a bittersweet turn.

The father’s commitment to his work and busy life takes precedence over spending precious moments with his growing child. The lyrics poignantly illustrate the son’s yearning for his father’s attention:

*“And the cat’s in the cradle and the silver spoon,
Little boy blue and the man in the moon.
‘When you comin’ home, Dad?’ ‘I don’t know when,
But we’ll get together then, son.
You know we’ll have a good time then.’”
As the years pass, the son matures and the roles reverse. Now, it is the son who is busy and distant from his aging father. The stark realization dawns*

*upon both of them, but it’s too late to recapture the moments they missed:
“He’d grown up just like me.
My boy was just like me.”*

The Emotional Impact:

“Cat’s in the Cradle” resonates so deeply because it touches on a universal theme—the regret and sorrow that can arise from neglecting our loved ones in pursuit of other priorities. It’s a reminder of the fragility of time and the importance of nurturing the bonds that truly matter. Each verse pulls at the heartstrings, as we witness the transformation of a once-promising relationship into one marked by regret and missed opportunities. The power of this song lies in its

ability to make us reflect on our own lives, prompting us to prioritize our loved ones and cherish the moments we have together.

Conclusion:

“Cat’s in the Cradle” remains a powerful and emotionally charged song that continues to strike a chord with listeners worldwide. It serves as a poignant reminder to cherish the moments with our loved ones, for time waits for no one. As we navigate the complexities of life, let us not forget the message of this timeless ballad—to bridge the gap before it’s too late, to ensure that our “cat’s in the cradle” moments are filled with love, connection, and treasured memories.

The Power of Plyometrics:

Boosting Athletic Performance and Its Importance in Top Sports

IN the world of sports and athletic performance, the pursuit of excellence is a constant journey. Athletes are continually seeking ways to gain an edge, pushing their bodies to new limits, and honing their skills to perfection. One training method that has gained significant attention and prominence in recent years is plyometrics. These explosive exercises, often referred to as “plyos,” have become a vital component of the training regimens of top athletes worldwide. In this article, we delve into the world of plyometrics, exploring its benefits and why it holds a pivotal role in top sports.

Understanding Plyometrics

Plyometrics, derived from the Greek word “pleythyein,” which means “to increase,” is a form of exercise designed to maximize an individual’s power, speed, and strength. Unlike traditional resistance training that emphasizes controlled, steady movements, plyometric exercises are all about explosiveness and rapid muscle contractions.

How Plyometrics Work

At the core of plyometrics is the concept of the stretch-shortening cycle. This cycle involves a quick muscle lengthening (eccentric phase) immediately followed by a forceful muscle shortening (concentric phase). Think of it as a coiled spring; the muscle is rapidly stretched, then rapidly contracted, allowing for a powerful burst of energy.

The Plyometric Arsenal

Plyometric exercises come in various forms, each targeting specific muscle groups and movements. Some common examples include:

Box Jumps: Athletes jump onto and off a sturdy platform or box, challenging their lower body explosiveness and coordination.

Squat Jumps: These involve performing explosive jumps from a squatting position, enhancing leg strength and vertical leap.

Burpees: Combining a squat thrust, push-up, and jump, burpees provide a full-body plyometric workout.

Medicine Ball Throws: Athletes toss medicine balls explosively, engaging core muscles and improving upper body power.

Importance in Top Sports

Enhanced Explosive Power: Top sports often demand quick

bursts of energy and power. Plyometrics train the body to generate maximum force in minimal time, making them invaluable for sports like basketball, sprinting, and volleyball.

Improved Agility and Speed: Plyometric exercises enhance an athlete’s agility and speed, crucial in sports like soccer, tennis, and football, where rapid changes in direction can be game-changing.

Injury Prevention: Properly executed plyometrics can help reinforce joints, ligaments, and tendons, reducing the risk of injuries. This is especially critical in contact sports such as rugby or American football.

Vertical Leap: For sports like basketball and high jump, an increased vertical leap can be the difference between winning and losing. Plyometrics can significantly boost an athlete’s ability to jump higher.

Optimized Performance: Plyometrics fine-tune an athlete’s neuromuscular system, leading to improved coordination and reaction time. This can be a game-changer in sports like boxing, where split-second decisions matter.

In the competitive world of top sports, the importance of plyometrics cannot be overstated. These explosive exercises have become a cornerstone of elite athletes’ training routines, helping them achieve new levels of power, speed, and strength. Whether it’s leaping higher, sprinting faster, or maneuvering with agility, plyometrics are the secret weapon behind many sports success stories. As athletes continue to push boundaries and strive for greatness, plyometrics will remain a fundamental tool in their quest for excellence.

Striking a Harmonious Chord:

Navigating Professionalism in Relationships

IN the grand symphony of life, individuals often find themselves in a delicate balancing act, trying to harmonize their personal relationships with their professional ambitions. It's a challenging endeavor, but when executed with grace, it can yield remarkable personal and career growth.

1. The Power of Equilibrium:

- Much like a skilled tightrope walker gracefully navigating a slender line, the art of balancing love and ambition hinges on equilibrium. Success in both realms requires a delicate dance where neither overshadows the other.

2. The Importance of Boundaries:

- Central to this balancing act is the establishment of clear boundaries. Distinguishing between personal and professional life is vital. It entails understanding what is suitable for sharing at work and what should remain within the confines of one's relationship.

3. Love, Fairness, and Equity:

- When love and ambition intersect in the workplace, fairness is of paramount importance. When a couple works together or holds positions of authority, it's essential to ensure that impartiality prevails, fostering an environment of equality and professionalism.

4. Preserving Confidentiality:

- Workplace settings often involve handling confidential information. To maintain trust, it's imperative to respect your partner's privacy and refrain from sharing sensitive details with colleagues.

5. Addressing Personal Matters:

- Personal conflicts will inevitably arise, but the workplace is not the venue for their resolution. Reserved for after-hours, these moments are best tackled constructively, maintaining a focus on finding amicable solutions.

In this intricate dance of love and ambition, communication remains the cornerstone. Open dialogue between partners regarding work-related matters is key, helping them navigate potential hurdles and build strategies to surmount them together.

As couples endeavor to strike a harmonious chord between their careers and relationships, professionalism, time management, and adaptability emerge as their guiding principles. Balancing love and ambition isn't about choosing one over the other; it's about mastering the art of having both, creating a symphony of success in both personal and professional spheres.
